MINUTES 07-19-1965 Board of Equalization-Ruling

In regards to the matter of the Petition filed with the Board of Equalization by taxpayer San Juan Bean Growers, Inc. Said Petition was filed on July 19, 1965 and hearing was duly held on same date. Mr. Sellards and Mr. Porter appearing and presenting evidence for and on behalf of Petitioner and the County Assessor, Matt Wolff, appearing and presenting evidence on his own behalf. The Board having heard and received all the evidence offered on behalf of Petitioner and the County Assessor and having taken the matter under advisement and for further study.

Now finds that the particular objection as made to the Board by Petitioner was the assessment and levy upon wheat and beans, both agricultural products raised and harvested in this area; that all of said wheat and beans assessed were owned as of the first day of the year 1965 by Petitioner, having been purchased from the farmers, and that all of said property was situate in the County of Montezuma, State of Colorado on said date; that the beans had been recleaned and that nothing had been done to the wheat other than receive and store same until it was purchased; that said wheat and beans were purchased by Petitioner who in turn sells same to wholesalers both within and out of the State of Colorado; that said Petitioners do not sell said wheat and beans on a retail basis; that Petitioner had listed the wheat and beans owned by it separately on taxpayers schedule filed with the County Assessor and that same was not listed nor shown on said schedule as inventory of merchandise; that no objection is made as to the assessed valuation for tax purposes but objection is made and based solely on the grounds that said properties are exempted from taxation.

The Board having been advised that an action at law was commenced by Petitioner in the District Court in and for the County of Montezuma, State of Colorado against the State Tax Commission upon a similar question concerning like property assessed in the year 1964 or prior thereto, which action is still pending determination by the courts.

The Board is of the opinion and its ruling herein is based thereon that Chapter 94 of the 1964 Session Laws of the State of Colorado must of necessity control in this instance, and that citations hereinafter set forth are from said Chapter 94 and -not otherwise except as to the Constitution of the State of Colorado.

The Board is of the further opinion that by virtue of Article 10 of the Constitution of the State of Colorado and from the opinion of the County Attorney to the Board of court decisions that the burden is on the Petitioner to prove any exemption from taxation of its properties and that otherwise all personal property would be subject to taxation.

The Board having considered 137-1-1(3) (4) as to the meaning of personal property and as to property not expressly exempted from taxation by law. The Board also has examined Article 2 of said Chapter 94 concerning exemptions from taxation. Also the Board has considered under Article 5 of said Chapter pertaining to valuations of real and personal property and valuations thereon 137-5-9(4)(6) and find that said property herein subject of the hearing was properly not shown as inventory of stocks and merchandise. The Board having further examined under said Article 5 137-5-11(2) and finds that same is not applicable since it is admitted that the property assessed, which is now in question, was purchased by and owned by and held by Petitioner and that the grower or producer of said wheat and beans no longer owned any interest in same.

THE BOARD THUS RULES AND HOLDS that said property in question was properly listed as personal property and not as inventory of stocks and merchandise and that said property was properly valued and assessed by the County Assessor as personal property on hand and owned by Petitioner on assessment date within the County of Montezuma, State of Colorado and that the assessment as made by the County Assessor is hereby upheld and confirmed and that the Petition of taxpayer must be and is hereby denied.

On this 26th Day of July, 1965

Ex-Officio County Clerk

Chairman

In regards Petition of taxpayer, Safeways Stores, Inc., filed with the Board of Equalization for determination. The Board notes that hearing thereon was, held on 7-21-65 and the Board having heard the evidence and argument presented on behalf of taxpayer by its chief accountant who represented and presented taxpayer's case, and having heard and received evidence of the County Assessor, Matt Wolff, appearing for himself.

The hearing was held before Commissioner Stanley McCabe, chairman, and Commissioner Irwin Matlock.

At the conclusion of the hearing the matter was taken under advisement and further study by the Board.

Now this 26th day of July, 1965 the Board finds:

That Petitioner failed to give any evidence on the age of each of the properties upon which the assessed valuation is obtained and it is admitted that no age of the personal property was given to County Assessor; that Petitioner was unable to identify the specific personal properties by age groups and that Petitioner admitted that he was unable to give any evidence as to the condition of the personal properties upon which protest is made to the assessed valuation.

From the evidence presented to the Board by the Assessor the Board finds that the assessment by the Assessor was made according to the rules and regulations promulgated and enacted by the Colorado Tax Commission in arriving at true value of the property in question; that taxpayer admits this but claims that taxpayer claims it should be less period of life applied to certain groups of classifications of its property, which life should be in accordance with the life allowed for depreciation purposes by the Internal Revenue Service; further, taxpayer protests the 5% additional added for the property being in good condition, which 5% was added by the taxpayer on certain properties purchased in 1959 or 1960 by taxpayer, this though Petitioner could give no evidence at all for the Board's consideration as to the condition of the properties, whether good, average or otherwise, for the Board to make a determination thereon.

Further, the evidence shows that other comparable and like properties of Petitioner's were assessed and valued in the same manner as that of Petitioner by the County Assessor and that the true value of the property thus arrived at as to Petitioner, City Market and other like property in the City was thus equalized; this evidence was not disputed.

IT IS THE BOARD'S RULING AND HOLDING in this matter that the assessment of the County Assessor be and is hereby affirmed and upheld as the true value for assessment purposes of Petitioner's properties and said assessment affects an equalization of taxes on like and similar properties.

The Board having considered the Petition and its attached Exhibit A and having heard and received all the testimony and evidence offered by taxpayer and the County Assessor,

DOTH FIND that taxpayer did not file a schedule of its partially or completed buildings and building components with the County Assessor for the year 1965 because Petitioner was advised and was of the opinion that said property was not subject to taxation; that the assessment protested pertains and is upon buildings and improvements upon land situate in Mesa Verde National Park which was assigned by the Federal Government to taxpayer . for purposes of constructing said improvements, which land lies and is situate within Mesa Verde National Park and is public land owned by the Federal Government; that Petitioner is a corporation incorporated under the laws of the State of Colorado; that Exhibit A of Petitioner places bare legal title to said improvements upon said land constructed by Petitioner in the Federal Government and places In and with Petitioner all other rights of legal ownership with rights of Petitioner upon termination of its contract with the Federal Government to sell or otherwise dispose of said improvements with the proceeds thereof belonging to Petitioner; that Petitioner has sole use of said properties

for all practical purposes though under certain rules and regulations of the government; that Petitioner has the legal possession under said Exhibit A in and to said property; that on a similar or like contract with the federal government, which Exhibit A attached to Petitioners Petition renews, the government purchased similar property, being like or similar improvements, from taxpayer in the later part of the year 1963 or early part of 1964 because the Federal Government was changing location for its present contract with Petitioner and was intending to abandon or discontinue use of the property of Petitioner used under the expiring contract; that prior to concluding this purchase the Federal Government required taxpayer to furnish evidence that all taxes upon said property had been paid in full; that the assessment as made by the County Assessor was on an equal basis with other similar or like property and that the said assessed value as found by said Assessor is proper and just.

The Board having considered Article X, Section 10 of the Constitution of the State of Colorado and the case annotated thereunder *Denver & R.G. Ry. Co. v. Church* 17 Colorado 1, 28P 468 and Chapter 94, 1964 Session Laws of the State of Colorado and in particular
