CONTINUATION OF THE PROCEEDINGS OF THE BOARD OF COUNTY COMMISSIONERS  
MONDAY, November 18, 1974

G. W. McCutcheon and Gayle Humphrey appeared to discuss a deed given them by County for the Narrow Gauge and Narrow Gauge Extension mining claims. The tax deed given by County described the property as comprising 5 acres, more or less, and had asked McCutcheon and Humphrey to pay an additional $150.00 for the claims, which actually comprise 20A more or less. The property was advertised as the 5A size which the Assessor had valued for the Board prior to the sale. McCutcheon and Humphrey contend that their purchase price should include all 20A involved. The Board felt that the property had not been properly valued at the time of the sale and that the additional charge would be a fair charge for the land involved. The matter was left unresolved.

Del Bessey, Local Manager of Mountain Bell, with G. H. MacDonald, Bill Schnieder and Cotton Howell appeared to discuss problems of damage to the telephone company buried cables. Comm. McComb discussed the locator service to be provided by Mountain Bell and County policy of showing telephone company where to bury cables. Other company personnel also appeared to help explain the situation. Coma. McComb asked the telephone company to pay the expense of a man to supervise installation of cables in the location designated by the Road Superintendent. Mr. MacDonald suggested that in the future, a report by form letter would be requested within 30 days of an incident and no billing would be made until a determination is made of who is at fault. Both parties agreed to drop previous billings and start from this date forward.

Joe Cornett and six other residents on a road east of Cortez appeared to request assistance on their road. Mr. Cornett reported that the road had been maintained by county equipment at least twice in the last 58 years. Part of the road is an State land and part an private land. Length of the road is about one mile. The Board agreed to study the matter and try to have an answer soon.

Cortez City Manager Dwayne Longenbaugh reported on the incorporation of the Montelores Historical Society and pointed out that the Commissioners are custodians of many items of historical value. He requested that consideration be given to locating and keeping all such items and invited the Board to attend a meeting on December 5th.

Jean Keaky and Reyas Butler appeared to discuss the road into Hartman Draw. The City of Cortez has agreed to maintain that portion of the road within the City if the road is constructed to their specifications and right of way. They asked that the location be inspected and advice given as to best route into the canyon. In any case, the road would have to be built to county specifications prior to any agreement of maintenance. An inspection will be made this week.

Road Superintendent Earnest Boren reported on equipment and road conditions.

Gorham Steerman presented an easement for the public livestock drive into McElmo Canyon for that portion of the drive crossing his property in section 19-36-16. County Road Department will pay recording fee.

Cigarette tax apportionment in the amount of $948.46 for the month of September was received from the State of Colorado. Approval of the mill levies for various County Funds by the State Property Tax Administrator was also received.

Bill Brown, Region 9 Alcohol and Drug Coordinator, presented a proposal for a community facilitator that would involve about $22,000.00. County portion of the program would be in-kind.
The Board approved his plan and Mr. Brown will complete the application for submission to State Department of Health for approval. Completed draft will be presented next week. JIM Suckla reported that he would be attending a BLM meeting and asked if he could do anything for the Board, He recommended Charles Donaldson to build the fence for the McElmo Stock Drive. He will advise BLM that work will be started immediately. The $2000.00 labor cost for constructing the fence will be paid by the BLM. County Auditor Gale Greenlee reported that no certification of mill levy could be made for School District Re 4A, Montezuma Water District #1, Montezuma Mosquito Control and the Lebanon Cemetery District and a letter was written to the Mosquito Control District advising them of that fact.

Probation Officer Ralph Rasor presented two estimates for installation of a sound system in the
District Courtroom. Mountain Music w/6 speakers, $1345.10, B & D Electric w/10 speakers,

offered to move his fence line back to allow county room to straighten a portion of
County Road #21 at a point just below McElmo Road. Forrest Gray also appeared requesting a
variance to the regulations to conform with a verbal agreement made with his brother in 1969.

the flood plain of the Dolores River in the Twin Spruce area. Art Nielson, Chairman of the
Republican Central Committee with Joe Tipton and Guy Dyer presented two alternative plans
for reapportionment of the County Commissioner districts. Criteria was to keep Mancos and
Dolores in separate districts and keep current commissioners in their present districts. U.S.
census district #11 was necessarily split to achieve near equal numbers and to keep one
commissioner in the rural area, the other two districts would split the City of Cortez between the
other two districts and each would Include a sizable rural area. Plan #1 previously submitted
was asked to be withdrawn. They asked that the reapportionment be done prior to holding
precinct caucuses on May 6, 1974.
Marshall Denton reappeared to discuss the Dolores River hearing to be held
