POLICY - AMENDED SUBDIVISION IMPACT FEES: Impact fees of $800 shall be assessed on each lot created by subdivision or by exemption, except a lot with an existing residence shall not be so assessed. Moved by Comm Story, seconded by Comm McClellan and carried. (See January 22 and February 5, 1996 Minutes.)

MINUTES of the previous meeting held on Monday, February 26, 1996, were read. Comm McClellan moved to approve these minutes, seconded by Comm Story and carried.

MISCELLANEOUS CORRESPONDENCE was read and contents noted. The Sheriff’s report for February 1996, and the Workman’s Camp Annual Report were received.

PAYROLL: General fund vouchers #15053 thru #15173 in the amount of $138,186.35, #24406 in the amount of $15,848.71, #24407 in the amount of $87,586.97, Road fund vouchers #15174 thru #15204 in the amount of $47,390.07, #9188 in the amount of $31,915.38, Landfill fund vouchers #15205 thru #15208 in the amount of $6,236.25 and #282 in the amount of $4,288.98 were approved for payment.

OFFICE OF COMMUNITY SERVICES: Mike Preston presented a County Road Revenue Analysis - Impact Fees report. The report was discussed.

RESIDENT DAVID SWENSEN presented his proposal for a two-lot moderate subdivision. He wants to split a 5.02 acre parcel into a 3 acre parcel with a house and a 2 acre parcel with a commercial building. The commercial property will be "restricted to commercial, absolutely no residential use on commercial." He was told that he needs to check with the State Department of Transportation for access and the Mancos Water District to be sure water taps are sufficient for the commercial building. Mr. Swenson stated that there is a commercial easement to both of the properties, separate septic systems, and water taps already in place. Since use will not change and both parcels have buildings on them, no impact fees will be charged. Administration fees will be $400 per lot. Planning Manager Ginger Black was present.

PLANNING: The moderate subdivision proposed by Mindy Rosenbaugh, within the Verde Acres Subdivision, was presented. Since recorded covenants show that Lot 20 can be divided, all the residents in the subdivision do not have to sign off on the plat. Administration fees and one impact fee for a total of $1,400.00 will be charged for the two-lot subdivision. Bear Creek Ranch Minor Subdivision plat was presented and discussed. It was noted that the site of the one residence and roads have not been entered on the plat for the Conservation Easement tract as requested (see January 22, 1996 minutes). Action was tabled. Phase II of the Lakeside Estates Mobile Home Park was discussed. Since this phase was approved in 1984, the county does not need to take any further action. The minor subdivision proposed by Margaret Stevenson, within the Stevenson Minor was presented. Highway access needs to be checked and everyone in the subdivision needs to sign off on the amended subdivision plat.
HAY MEADOWS SUBDIVISION developer Walter Ertel presented the final plat for approval. Comm McClellan moved to approve and sign the Hay Meadows Subdivision plat, seconded by Comm Story and carried. Planning Manager Black was present. Mr. Ertel paid $11,200.00, which included all the administration fees and one-half of the impact fees for the subdivision, and submitted an irrevocable "letter of credit" for $5,600 to cover the remaining amount due for the impact fees. Impact fees will be used on CR N.

LIQUOR LICENSE: Deputy Clerk Betty Davis presented an application for renewal of a Hotel and Restaurant, Extended Hours license for the McPhee Marina Recreation Complex, Inc. The Sheriff's department reported no problems with the outlet. Comm Story moved to approve the application, seconded by Comm McClellan and carried.

BOARD OF SOCIAL SERVICES was conducted.

STATUTES on the 911 Authority Board reinstatement of users fees were read.

HEALTH DEPARTMENT Nurse Bette Sutter presented the department's Year End Report. The programs were discussed. These were discussed. In regard to the sick leave policy, she was told that when the policy is looked at her concern will be taken into consideration. Contract of a partnership between the Dolores County Home Health Service and the Montezuma County Home Health Service was reviewed. Comm McClellan moved to sign the contract extending home health care to Dolores County, seconded by Comm Story and carried.

PRIVATE FAMILY CEMETERY: It was determined that the Montezuma County Board of Health does not have rules or regulations to address the moving of the bodies (see minutes of February 26, 1996). Application will need to be made through the Colorado Department of Health. This information will be relayed to Attorney Jon Kelly. Nurse Sutter was present.

PINE ZONE PROJECT: Ford Foundation representative Francis Koran, Natural Resources Law Center representative Betsy Rieke, Fort Lewis College Local Affairs representatives Sam Burns and Tim Richard, Office of Community Services representative Mike Preston and Carla Garrison, Federal Lands representative Mary Chapman, and U.S. Forest Service representatives Bob Dettman, Thurman Wilson, and Jim Powers met to discuss the Pine Zone Project (past/present/future). Items discussed were: (a) leadership of Montezuma County in instigating the partnership with the Forest Service and other entities, (b) need for and how to accomplish local level involvement in these types of projects, (c) problems with pricing and guaranteed source of supply before commercial business can invest, and (d) the next step in the approximate 3-year process. Funding from the Ford Foundation might be available.

ROAD DEPARTMENT Supervisor Tim McComb presented the Road Department Organizational Chart. Reported big hole on CR 35.5 will be checked. Items discussed for the proposed work on CR G (McElmo Canyon) were; gravel supply, cost to do three lifts of chip seal on 8 miles this year, Rock Creek bridge area, posting of delay signs, and how to control traffic while work is being done. Supervisor McComb asked if 10 hour work days could be scheduled when the work is started. This was affirmed. Scheduling of employees for the project was discussed. Cost figures on hiring deputies will be compiled. Statutes on posting speed limits were discussed. The Board will do an on-site inspection of the road before work is started.

REQUEST received in a letter from Engineer Fred Thomas concerning the Sanitation District was discussed. Since comments are needed from Sanitation Manager Mick Periman, action was tabled.

MINUTES of the previous meeting held on Monday and Tuesday, March 4 - 5, 1996, were read. Comm Story moved to approve these minutes, seconded by Comm McClellan and carried.

MISCELLANEOUS CORRESPONDENCE was read and contents noted. The Treasurer's reports for February 1996 were received.

ACCOUNTS PAYABLE: General fund vouchers #29468 thru #29663 in the amount of $109,849.60, Road fund vouchers #29664 thru #29717 in the amount of $24,887.40, and Landfill fund vouchers #29718 thru #29730 in the amount of $21,377.21 were approved for payment.

CONTIGUOUS COUNTIES, LIMITED GAMING IMPACT FUND: Bob Brubaker reported on a recent meeting with the Gaming Advisory Committee. He gave figures reflecting changes by the Committee, which showed grant amount decreases in the original applications submitted by governmental entities from Montezuma County. A letter will be written to Department of Local Affairs Deputy Director Jerry Smith, addressing questions about history relating to prior receipt of funds. Representative Brubaker will meet with the Committee again.

ANIMAL DAMAGE (PREDATOR) CONTROL PROGRAM: The Work Plan/Financial Plan for the period of January 1 - December 31, 1996 was submitted for review. Comm Story made a motion to sign the Cooperative Agreement No. 96-73-08-0310-RA between the U.S. Department of Agriculture, Animal and Plant Health Inspection Service, Animal Damage Control and the Montezuma County Commissioners, Cortez, Colorado. Motion was seconded by Comm Colbert. Comm Colbert "aye", Comm Story "aye", and Comm McClellan "nay." Notion carried. The contract will pay for a one-half position for an animal damage control specialist. Montezuma County Commissioners will provide funding up to $4,100 in support of the Agreement and this Work Plan for 1996.

UNDERSHERIFF Bob McDonnell met to give the Board an update on the robbery of the Valley National Bank, Dolores, CO and the capture of two suspects. The suspects are incarcerated in the La Plata County jail - expenses will be paid for by the Federal Government since this was a federal offence. Gaming impact fees were discussed.

LANDOWNERS David and Mary Leonard presented a "Letter of Intent" (see attached) concerning their proposed campground. The development is off CR 10, which has a "Trail of the Ancients" designation. They stated that they will comply with State rules for a primitive campground in regard to sufficient sewage disposal. Since there will be no division of land, the question of whether subdivision rules, regulations and impact fees are applicable to this type of commercial development was discussed. It was noted that the County has no commercial use rules, regulations or impact fees in place at this time. Action was tabled. The Board asked the Leonards to come back in two weeks. They stated they would. Planning Manager Ginger Black was present.
LANDOWNERS John Bishop and Ruth Davis met to discuss their proposed mobile home park on CR B within one mile of Hwy 160. The 3 acre parcel owned by them, already has two mobile homes on it. They stated they would like to create six to eight more permanent rental spaces for mobile homes. Concern for health and welfare were discussed. The park would need to have a state engineer designed septic system. Current mobile home park regulations were read, and a copy given to them. Action was tabled. They were asked to come back in two weeks. They said that they would. Planning Manager Ginger Black was present.

LANDOWNERS Bob and Vicki Archibeque stated that they bought land represented to them as having a variance, but it was brought to their attention that the legal description an the variance does not match their property. They presented the corrected legal description. Planning Manager Ginger Black presented planning resolution P-31-79. It was affirmed that this variance will be amended to show the correct legal description. The only charge will be $21.00 for the recording fee.

BOARD OF SOCIAL SERVICES was conducted.

PLANNING: Since no action was taken, it was determined that a check for fees will be returned to Basin Title concerning sale of property by Loren Gates to Vivian Wolf (see November 6, 1995 minutes Joyce Bowles). Wayne Lee's request for the release of the irrevocable letter of credit for his subdivision was discussed. He will be told that before the letter can be released department approval is needed, stating that the subdivision road is built to county specs. Joe McDonald's proposed subdivision which shows a 35 acre parcel, not included, in the middle of the acreage was discussed. He has indicated that if requested, he will put the acreage all together, leaving the large parcel at one end or the other. The Board stated they prefer that the 35 acre parcel not be in the middle of the proposed subdivision. Mr. McDonald will be informed. Letter from Attorney Ehlers clarifying the location of the proposed access road and residence on the Bear Creek Ranch Subdivision Conservation Easement was noted and accepted. However, it was noted that on the subdivision parcel plat, the historically used stock drive is not shown. To avert future problems, Mr. Ehlers will be asked that this easement be shown on the plat.

OFFICE OF COMMUNITY SERVICES: Mike Preston met to discuss two proposed commercial developments in the county. Ginger Black, Loretta Murphy and Lyle Bilberry were also present. Statutes on definition of a subdivision were read. The following issues were discussed: (1) Needs that should be addressed in connection with the Leonards proposed campground: (a) adequate public facilities for public health - sewage disposal; (b) adequate public safety - road condition for emergency vehicles, and water availability for fire risk; and (c) the physical integrity of the county. Also discussed was whether the county is in a position within the next two weeks to put in place all the rules and regulations, and impose impact fees to solve the immediate problem. Suggestion was made that commercial developments at this time be taken care of on a case-by-case basis since no rules, etc. are in place. (2) Proposed mobile home park by Bishop and Davis; (a) be considered under the Mobile Home Park regulations already in place; and (b) charge a total of $7,500 for impact fees and $400 per lot administration fees.

ADJOURNED FOR LUNCH with the City of Cortez. The Airport Committee approved the minutes of January 8, 1996.

SOUTHWEST COMMUNITY RESOURCES (CDBG): Request for reimbursement from Colorado Housing was signed.

REGION 9: Grant proposal was submitted and reviewed. Comm Story moved to support the application for a grant from the Farmers Home Administration for Housing Preservation to supplement the Revolving Loan Fund, seconded by Comm McClellan and carried.
ROAD DEPARTMENT Supervisor Tim McComb reported that Bill McLaughlin met with landowners along CR G (McElmo Canyon) and got permission for the road department to take out corners, old trees, and move fences for more right-of-way for proposed improvements. Some of the culverts have been done and they are ready to start gravelling. The letter showing Energy Impact monies being awarded for the proposed work on CR G (McElmo) was noted. Paperwork will now be started for finalization of the grant. Access on the Eleanor Tozer’s property to get to the proposed gravel pit on Bureau of Land Management land was discussed. Ms. Tozer will be asked to submit a letter stating her conditions for the access and length of time for the lease. Personnel released by Workman’s Comp for sedentary duties was discussed. Workman’s Comp personnel will be contacted for clarification. Mechanic position will be advertised in the paper. Cache Canyon road reopened today. Supervisor McComb asked if the Board would like to meet with the contractor from Grand Junction who did the landfill road. This was affirmed and tentatively scheduled for next week.

TOWN OF MANCOS: Comm Story made a motion to pay the Town of Mancos allocated monies in the amount of $20,413.00 for 1995 and prior years from the Road and Bridge mill levy fund, as it relates to the assessed valuation for Mancos. The motion was seconded by Comm McClellan and carried. MISCELLANEOUS CORRESPONDENCE was read and contents noted. The Sheriff's and Clerk's reports for February 1996 were received.

SUNDANCE CANYON SUBDIVISION developer Paul Long asked if impact fees can be used for roads in the subdivision. The access is off a State Highway (see minutes of October 23, 1995). Reference was made to the Policy - Use and Payment of Impact Fees adopted February 26, 1996. He was told that in accordance with this policy, the impact fees will have to be applied to a nearby county road that is included in the road upgrade plan. Mr. Long also asked if the road for Phase I, which is designated as a public road on the plot, can be changed to a private road. He presented affidavits signed by all the subdivision owners stating that they would like this section of road to be private. Discussed were different options to amend the plat and change the road dedication. Mr. Long agreed to a public hearing to consider changing the road designation from public to private and amending the plat. The hearing is tentatively scheduled for April 1, 1996, and will be advertised in the newspaper. Mr. Long will be notified of the time. It was noted that the road in Phase II is designated as a private road.

STATUTES on Home Rule Cities and authority beyond City limits were read. Further research will be done.

LIQUOR LICENSE: Deputy Clerk Betty Davis presented an application for renewal of a 3.2% beer license "on and off premises" for the Wild Wild Rest establishment. The Sheriff's Office reported no problems with this outlet. Comm McClellan moved to accept the application, seconded by Comm Story and carried. It was noted that the public hearing for an "on the premises" Hotel/Restaurant Liquor License, with Extended Hours License for the Roundup Junction Restaurant scheduled for March 25, 1996, at 10:00 a.m. is postponed. The public hearing is tentatively rescheduled for April 1, 1996, at 10:00 a.m. Mr. Hansen will be notified of the change.

SANITATION MANAGER Mick Periman met to discuss the request received in a letter from Engineer Fred Thomas concerning the responsibilities, etc. of the Sanitation District. The following items and how to implement them were discussed: (1) address health and safety concerns, and water quality and water supply in the proposed Comprehensive Land Use Plan, (2) monitor streams - with increased testing on the Dolores River and testing on the Mancos River above and below the town of Mancos, (3) need for sign off on sewage systems before transfer of any deed, and (4) requirement that engineers send a copy of their report on sewage systems to Manager Periman. No action was taken. Mike Preston was present.
DEPARTMENT HEADS: Extension Office Director Jan Brandt, Finance Officer Mary Ann Sanders, Senior Nutrition Director Sue Fletcher and Assessor Bob Cruzan met with the Board. Assessor Cruzan mentioned the possible need for more security in the courthouse, since there has been an increase of incidents. Bill Bedker will be asked to look into what can be done without creating a problem with the fire codes. Nutrition Director Fletcher invited everyone to the Senior Nutrition Outreach Program Open House at the Annex. Extension Director Brandt reported on the success of the Ag Expo and gave an update on several programs and grants. Earlier, Clerk Evie Ritthaler submitted her report for February 1996.

COUNTY HEALTH INSURANCE: Finance Officer Sanders asked if the County plans to continue to pay the health insurance for Mary Cross, wife of deceased county employee James Cross, and her three children after the allowed 36 month period. Comm Story made a motion that the county continue to pay for this coverage until the youngest child is of legal age (18 years), subject to review by the Board. The motion was seconded by Comm McClellan and carried.

ROAD DEPARTMENT Supervisor Tim McComb stated that Bill Pigg, contractor for the landfill road chip and seal project came last week and took pictures of the job. A meeting scheduled for next week with him will be rescheduled for April 1. The request from Chester Tozer for the county to clean out a 1/4 mile section of irrigation ditch along CR G (McElmo Canyon) was discussed and action tabled until minutes are researched. Supervisor McComb presented an idea for doing chips differently. The new method would require another screen and conveyor. He will compile cost figures. Discussed options for access to BLM gravel - will continue to work with Eleanor Tozer.

LANDFILL ORDER: Comm McClellan made a motion to direct the Clerk to issue Order Number 0-05-96 to the Treasurer to transfer $150.00 from the Landfill Fund to the General Fund. The City of Cortez remitted a check on February 15, 1996, for Landfill fees and the $150.00 amount was inadvertently included. This amount, which was to pay the Annex for the Western Swing Class should have been deposited in the General Fund. The motion was seconded by Comm Story and carried.

RISHEL SUBDIVISION PLAT: Comm Story moved to approve and sign the final plat for the Rishel Subdivision, seconded by Comm McClellan and carried.

PLANNING: A planning resolution P-31-79 Amended was presented whereas Bob and Vicki Archibeque, owners of 2.60 acres would be granted an exemption to the subdivision regulations to record an amended exemption for the 2.60 acres due to the fact that the resolution was recorded with an incorrect legal description in Section 18, T.36N., R.14W. This is the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm McClellan and carried. A planning resolution P-53-92 Amended was presented whereas Richard Neal, owner of 4.99 acres, would be granted an exemption to the subdivision regulations to record an amended exemption on 3.59 acres in Section 16, T.36N., R.15W. The remaining 1.40 acres is across Simon Draw and has been fenced off and corrals built on this property by the adjoining landowners - Suckla, who were under the impression that this property was part of their property. Mr. Neal will deed this property to the Suckleas. This 1.40 acres is not considered a separate tract to be sold, but will be added to the tract of the adjoining landowners. The original resolution describes the NW tract of 6.98 acres, the Central tract of 65.14, which is now 64.93 and the SW tract which was 4.99 and is now 3.59. This is the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm McClellan and carried. A planning resolution P-12-96 After-The-Fact was presented whereas Dan and Carol Sturtz, owners of 2.30 acres, would be granted an exemption to the subdivision regulations to record an after-the-fact exemption for the 2.30 acres in Section 34, T.37N., R.14W. This is the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm
McClellan and carried. This the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm McClellan and carried. A verbal request for an after-the-fact exemption to record 4.3 acres owned by Durango Ice & Produce Co. (David Haley) was tentatively approved – since there is a building on the acreage no impact fee will be charged. A verbal request from Eddie and Rose Francisco to create a 14 site RV Park outside Mancos, Co was tentatively approved. It was affirmed that administration fees of $400 per lot will be charged.

LANDOWNER R. W. Kirkpatrick met to discuss his proposed moderate subdivision, which includes approximately 9.11 total acres. His proposal is to create two parcels - a 3 acre and a 6 acre tract. It was noted that the horseshoe shaped parcel has a width and length problem, and the middle area is owned by another person. Mr. Kirkpatrick was informed that he needs to go through the Planning Commission, and that the plat presented needs to show the exact dimensions and easements of the two parcels. The original parcels were created by variances.

PLANNING: A planning resolution P-14-96E After-The-Fact was presented whereas Robert King, owner of .75 acres, would be granted an exemption to the subdivision regulations to record a .75 acre after-the-fact exemption in Section 36, T.39N., R.14W. A verbal request from Paul Varnell to split 3 acres from 45 acres was tentatively approved. A verbal request from James Malcom to split 3-1/2 acres from 180 acres was tentatively approved. It was hated that since the mobile home was moved onto the property in the past two weeks, applicable administration fees and an impact fee of $800 will apply -Mick Periman was contacted and no septic permit has been issued. A verbal request from Junior (Jack) and Jeanne Smith for an after-the-fact exemption to split 10 acres from 160 acres was tentatively approved for Randy Smith. ***** Other items were: (1) Lonnie Elliot's Moderate Subdivision was reviewed and action tabled, due to the fact that the surveyor named the subdivision Lonnie's Minor Subdivision. An easement from Cliff Fossum (Spring Canyon Subdivision) will need to be presented, before the subdivision can be approved. Mr. Fossum created the subdivision through which the road runs. Problems with landowners outside the subdivision using the road need to be resolved between Cliff Fossum and the landowners, not the Board. (4) Request by Pat McClenney and Rocky Wilson of the Merritt Tracts to allow an 18' roadway (60' easement). The request was denied - the roadway needs to be 24', due to the amount of tracts using the road now and in the future. (5) Proposed 3-lot Joe McDonald Subdivision and proposed further split of one lot within the subdivision by a perspective buyer was discussed. Blue Cross Chairperson Katherine Falcon (Mancos School) stated that there is a problem if the Hospital cannot work with the Group Plans. Jim Aulston expressed his concerns. David G. Long presented a letter expressing his concerns (see attached). Action is tabled - information on a less costly solution from Steve Harris is needed.

Koch Materials is scheduled to repair CR 25 (landfill) chip/seal in June, and complete the three chip/seal lifts on CR G (McElmo Canyon) by the end of August 1996. Since Empire Electric’s underground lines will be installed in the roads, completion of the roads has been postponed until this is done. Empire Electric has notified Mr. Veach that they will not schedule installation of the utilities, which includes utility placement in a lot line, until the final approval of the plat by the Board. Mr. Veach assured the Board that no changes in the lot lines would be made. Empire Electric was contacted and this information was conveyed to them. They stated that contingent on this information, the work will be scheduled. The Board tentatively approved the final plat, contingent on no changes in the plat design and completion of the roads within the subdivision. LANDOWNER Mae Lisenbury and Don Smith met to ask if Ms. Lisenbury's mother could split a 2 acre parcel into two 1-acre parcels. She would keep one for herself and sell the other to Mr. Smith. The request was denied since the acreage is too small to split.

UNDERSHERIFF Bob McDonnell was asked to comment on what action can be enforced by the Sheriff's Department in connection with dogs being a nuisance to neighbors in the county. ADJOURNED FOR LUNCH with Housing Authority representative Terry Wheeler.
ROAD DEPARTMENT SUPERVISOR Tim McComb reported that Dunlap and Kelly hills slide areas are holding. The request earlier by Walter Ertel was discussed. Repairing of CR L, to encourage gravel truck traffic on it instead of CR M and CR 26, was considered. Mountain Gravel and the City of Cortez will be asked if they will cooperate with the County in this endeavor. Use of impact fees from Jim chandelier’s Salt Brush Subdivision for CR G and CR 24.5 was discussed. Harry Hall’s access, fence, and gate problem was mentioned. Supervisor McComb reported work is on schedule on CR G (McElmo Canyon) project – Zwicker pipe is in. Turned in the application for the bridge on CR 27. Fifteen inch pipe versus eighteen inch pipe was discussed. Mr. Tozer was asked if he would take responsibility for maintenance of the ditch if the 18" pipe was used – he said “no,” since the problem with the ditch was created years ago when the county road was changed. Mr. Tozer stated that the 200 to 300 foot of flat section not in pipe was no problem. He asked that the county clean this section, since a backhoe is needed for the process. All options were discussed and recommendations made. Comm McClellan made a motion that the Road department install 18" pipe with a 24" culvert. The motion was seconded by Comm Story and carried. The county will consider keeping the 15" pipe already on site for other uses by the road department.

SPRING CANYON SUBDIVISION: Developer Cliff Fossum and landowners Gregory Munson and Erik Hamerschlag met to discuss use of the Spring Canyon Subdivision road. Planning Manager Ginger Black was present. Munson and Hamerschlag, owners of 31+ acres located past the subdivision stated they would like to split their acreage into two parcels, with each owning their own parcel instead of the present joint ownership. They asked for clarification on use of the private subdivision road, and what would be required of them to obtain approval for the minor 2-lot subdivision. It was noted that according to information presented, Munson and Hamerschlag’s deed gives them the right to use the private road. After discussion, Munson and Hamerschlag were told that any tentative approval for the minor subdivision would be contingent on: (a) bringing up to county specs the section of road from the cul do sac of the Spring Canyon Subdivision to their land, and (b) the Board receiving a copy of a Road Maintenance Agreement between them and the Spring Canyon Subdivision Landowner Association. Cliff Fossum stated he has no problem with the proposed subdivision, if these two items are done. Munson and Hamerschlag stated they did not have the funds to improve this section of road to county specs. They asked if they might continue using the road "as is" and build more than one home on the 31+ acres. This was affirmed.

PROPOSED COUNTY-WIDE BAN ON OPEN FIRES: Undersheriff Bob McDonnell and Fire Department representative Jay Balfour presented information showing the need to ban open fires in the county, and asked that the Board consider this, due to the existing dry conditions. Statutes were read. It was noted that other government entities including the Bureau of Land Management, Forest Service, and Mesa Verde Park have set forth a ban on open burning, etc. Comm Story made a motion (a) to adopt a resolution to ban open fires and prohibit trash burning in Montezuma County and, with such resolution being in effect until such time that conditions warrant a change in policy, and (b) to follow up with an enforceable ordinance to ban fires in accordance with State statutes. Motion was seconded by Comm McClellan and carried.

UNDER SHERIFF McDonnell presented Animal Control regulations adopted by Eagle County and Montrose City for review.

This is the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm McClellan and carried. Other items discussed: (1) Reiterated requirements that Elmer and Vanda Jones need to meet before approval of their RV Park, (see May 6, 1996, minutes). (2) Proposed changes on the Salt Brush Subdivision final plat approved May 13, 1996, were discussed. It was noted that since the subdivision will be increased by two lots and go from a moderate to a major subdivision designation, developer Jim Candelaria will have to go through the Planning Commission with an amended plat. (3) Reiterated that driveway permit fees are only be charged for one access into a subdivision regardless of the number of lots. (4) Discussed Flanagan, Foster, Uranga families two proposed land trades (acreage will be attached to adjoining properties and not considered as separate tracts), and two proposed exemptions. Tentative approval was given, contingent on access, 3 acre minimum parcels, and surveys showing all the changes on the two 160 acre parcels.

Supervisor McComb was asked to contact Richard Tibbets about his plans for chip sealing CR 26 in connection with the Mildred Estates Subdivision. Supervisor McComb stated that scheduled work on CR G (McElmo Canyon) is about done - still need to do three miles of gravel. Amount of subdivision impact monies available to do Kelly hill will be checked.

DEPARTMENT HEADS: Clerk Evie Ritthaler, Extension Office Director Jan Brandt, Health Department Nurse Bette Butter, and Road Department Supervisor Tim McComb met with the Board. Clark Ritthaler presented her, monthly report. Ballot issues and deadlines were discussed. Clerk Ritthaler reported that most of the maps have been moved to the Assessor's office. A request by the Assessor that the remaining maps have a new display rack instead of the cabinet now being used was discussed. Clerk Ritthaler feels that the cabinet is sufficient, but has no problem with the Assessor replacing it with a display rack, if he wants to pay for it. One recording Deputy Clerk recently attended a workshop which was paid for by the State. High cost of the presidential primary election was discussed. Health Department Nurse Sutter presented for review the Pre-natal Nutrition Program Contract between the Health Department and Southwest Memorial Hospital. He asked if a septic permit has been approved. He stated that he feels that the bridge into the property is too narrow for a sewage truck to come in to pump out any closed system. Sanitation Manager Mick Periman will be contacted and asked to do an on-site inspection of the site.

It was determined that the Patons would need the sign off of property owners on their side of the river, since all the amendments and changes had changed and separated lands in the original subdivision. Action was tabled. ****Later in the day, the Paton's met with the Board again. A fax was received from Virginia Lee James, the only other property owner, stating she had no objections to the proposed change. The Patons were told that an original notarized copy of the fax needs to be recorded with the amended plat. This year the City of Cortez Manager Ray contacted the towns of Mancos and Dolores and included them in their annual clean-up day. Mr. Baker said he does not have enough equipment to do this efficiently if the clean-up is all scheduled on one day. Since it has been published and planned, Mr. Baker asked for approval to continue hauling his bins the next day, if necessary. This was affirmed. It was noted that Baker Sanitation’s goodwill policy can be continued as they see fit – separate and apart from the free landfill day. For clarification, the Board stated that (a) the Community Clean-up Day is for individual residents to have an opportunity to take their trash to the landfill free for one day; (b) the free day is only for Montezuma County residents; and (c) Mr. Baker’s concerns will be addressed, if there is another free day approved next year.

Comm Story introduced the ordinance and Comm Colbert read it. It will be published this week in the Mancos Times, the Dolores Star and the Cortez Sentinel.

PLANNING: A planning resolution P-82-77 After-The Fact was presented whereas Edward G. Merritt, Jr. and Sheryl H. Merritt, owners of 12.78 and 29.22 acres would be granted an exemption to the subdivision regulations to record an after-the-fact variance on the 29.22 acre tract in Section 17, T.37N., R.15W. Lack of local contractors to do this work was discussed. Repair of holes and need for guardrail on CR 27 will be checked and guardrail will be installed for approximately 20 feet. CR L was mentioned. It was affirmed that chip/sealing the gravelled section of the road will have top priority, as soon as they start this year. Supervisor McComb was asked to contact Mildred Estates developer Richard Tibbets to schedule work on CR 26. The one mile section will be prepared (bladed and shaped) by the county, and Mr. Tibbets will put on two lifts of asphalt. CR O’s (McElmo Canyon) nine miles will be done by the end of the week. The Local Affairs contract is about done. Oil companies will be contacted for share of funds for the McElmo project. They are still making chips at the McElmo gravel pit. PROCEEDINGS OF THE BOARD OF COMMISSIONERS
MONTEZUMA COUNTY COLORADO
JULY 30, 1996

STATE OF COLORADO
COUNTY OF MONTEZUMA

At the special meeting of the Board of Commissioners, Montezuma County, Colorado, held on Tuesday, July 30, 1996, at the courthouse in Cortez, Colorado, there were present:

Thomas K. Colbert, Chairman
Helen McClellan, Vice-Chairman
G. Eugene Story, Commissioner of Deeds
Bob Slough, County Attorney
Nelda Jenkins, Deputy Clerk

SOUTHWEST MEMORIAL HOSPITAL: Southwest Memorial Hospital District Board members Martha L. Weaver, Aryol Brumley, Rick Beisel, Fay Kautz, Bryon Maynes and District Board Attorney Kent Williamson, Southwest Memorial Hospital Administrator Steve Selzer and Assistant Administrator Craig Ambrosiani and other interested persons (see attached list) met with the Commissioners. This special meeting was called to discuss legal issues concerning the proposed operating lease between the Montezuma County Hospital District and Southwest Health System, Inc.

ISSUES ARE LISTED BELOW:

Issue #1 (a) Can the Southwest Memorial Hospital District Board encumber debt against the Southwest Hospital, building and land, as set forth in the proposed lease, without a vote of the people? (b) Should there be a conveyance agreement to convey equipment and personal property, to Southwest Health System, Inc. or should equipment and personal property be included in the lease as assets?

After discussion, the following was agreed: Paragraph 6.1 and all related language (fee owner) will be removed from the proposed lease agreement, language will be added that the District Board will not encumber Southwest Hospital with any debt without a vote of the people, and all personal property will be put under leased hospital assets. The District Board and their representatives agreed that to keep the Southwest Memorial Hospital whole, the District Board can lease the building, land and personal property to Southwest Health System, Inc., but the lease does not give the District Board the right to encumber debt without a vote of the people. (See attached letter from Attorney Monte Dube.)

Issue #2: (a) How can District monies in the amount of 2.8 million be conveyed to a private non-profit company in accordance with state statutes? (b) If all debt against the Southwest Memorial Hospital at this time is paid before the lease is in effect, should a contingency fund be established with the remaining amount ($800,000?) as a factor for the continuation of the lease? (c) Who would receive the interest on the contingency fund monies? (d) How are the Commissioners going to account for the amount of debt to be paid and the contingency fund monies?

After discussion, the Board of County Commissioners proposed that all debt against Southwest Memorial Hospital be paid for in full and that a Contingency Fund with the remaining amount ($800,000?) be established with all the interest going to the Hospital District (who has a right to spend this interest on assets for the Hospital); that an independent auditor be hired to determine, on an agreed cut-off date, the debt and monies to be reserved in the contingency fund; and, that these amounts not include accounts receivables. The Hospital District Board members and their representatives stated they would give this proposal serious consideration and would reply with their answer by Friday, August 1, 1996.
Issue #3: How is the Board for the Southwest Health System, Inc, selected and how many members are on the Board.
Representatives from the District Board stated that the first Board was appointed. All elections thereafter will be open to any individual. Each year for the next three years one-third of the members will be elected. Thus, in three years the nine member board will all be elected, except for the one appointed District Board member, that is voted on by the District Board. They stated that the nine board members can serve for two one-year consecutive terms, and after a layout of one year can run again.

Issue #4: How will Southwest Health System, Inc. obtain collateral for the proposed now Doctors’ Medical Building?
Representatives from the District Board stated that this is a separate issue and they are considering several different options.

Issue #5: What are the plans for the levied tax monies?
Representatives from the District Board stated they have not made that decision yet.

Attorney Kent Williamson and Attorney Slough will review the proposed lease agreement for changes, etc. A letter from District Board member Dee Hutchison was read. The District Board presented "Responses to Questions posed in the Advertisement Placed in the June 29, 1996, Edition of the Cortez Sentinel" to the Commissioners. The Commissioners will consider the answers to the questions and respond at a later time.

PUBLIC comments included statements and questions about (a) use of levied tax monies, (b) territory restrictions, (c) results of petition showing 100 to 1 a desire for a vote by the people, (d) public property not owned by the District Board or Commissioners, but by the people and as such any question about use, etc. should go to the people for a vote, (e) insurance policy coverage of law suit and pending notice of intents, (f) restructuring private vs public, (g) buy out of buildings left vacant if new medical building is built, (h) contract with Baxter Supply, (i) collective bargaining with HMO’S, (j) contracts with doctors, hospital and insurance companies, (k) accounts receivables, (l) now medical building’s purpose/service to the people, and (m) compliment that this meeting was informative and not confrontational.

SOUTHWEST MEMORIAL HOSPITAL: Southwest Memorial Hospital District Board members Aryol Brumley and Byron Maynes, Southwest Memorial Hospital Administrator Steve Selzer, Assistant Administrator Craig Ambrosiani, Jim Engel, and other interested persons (see attached list) met with the Commissioners. This special meeting was called to discuss the proposed operating lease with Southwest Health Systems, Inc. (SHE) in regard to the accounts receivable and a proposed audit by an independent company.

ISSUES ARE LISTED BELOW:

Issue #1: If accounts receivables (approximately $4.5 million) are leased, what structure can be in place to provide assurance to the public that this amount will revert back to the Hospital District at some point in time to keep the District whole?

After discussion, it was agreed that the Hospital District Board will come up with a mechanism to satisfy the Commissioners’ concerns.

Issue #2: (a) How are the Hospital District and SHE Board members selected? (b) What are the duties of the Hospital District Board and the SHE Board? (c) How often will financial reports go to the Hospital District Board? (d) Can the SHE Board members be recalled?

After discussion, the following answers were stated. Hospital District, Board members are elected by the public; SHE Board members after the first appointed board, will be elected by the public. Each year for the next three years one-third of the members will be elected. Thus, in three years the nine member SHE Board will all be elected by the public. Duties of the Hospital District Board, as lessor, include being the landlord for a leased property and a financial monitor of the lessee. The SHE Board, as the lessee, will make the decisions. The financial reports will go to the Hospital District Board quarterly. The SHE Board members cannot be recalled, since they represent a private non-profit entity.

Issue #3: (a) If the Hospital District Board leases the Hospital to SHE, and in the future the Hospital has to be sold there is a need to clarify the clause “SHE would have the first right of refusal.” Clarification would state that this does not mean that the Board of County Commissioners is approving the sale of the Hospital. (b) Need to change language in the exhibit that relates to rent to be paid by SHE. Warding “if the Hospital District has monies to pay the Bond payment for that year that SHE does not have to make that payment,” needs to be changed to “SHE has to make the Bond payment.”

Representatives for the Hospital stated that the clarification and change will be made.
08-15-96

Issue #4: Need for an independent auditor.
Representatives for the Hospital stated that auditors Ernst & Young have been contacted. They will do an audit for the Hospital District and be retained by them. It was noted that the Hospital Board should notify the Board of Commissioners of the results of such an audit.

Issue #5: If a medical building is built will it be a bidding process and use local contractors?
Representatives from the District Board stated affirmative to both these questions.

PUBLIC comments included statements and questions about: (a) Hospital is shifting from a public to private non-profit entity, (b) where are 60,000 new patients coming from, (c) question should go to the public for a vote, (d) insurance coverage for pending cases, (e) who will pay interest on bond (f) authority of Hospital District Board, (g) why do any medical buildings need to be built on hospital property, (h) is this a good thing for the area, (i) libel for good business deal, (j) performance bond, and (k) ability to recall.

(2) All other landowners in the area will be informed of the request. (3) A public hearing will be scheduled. It was noted that local roads fall into three different categories - private, public and county, and even if the map is changed, use of the road may still be a problem. Mr. Carver stated he will submit a letter.

ROAD DEPARTMENT Supervisor Tim McComb presented a letter from the Forest Service asking that the Board allow them to install a second gate on CR 41 to protect the Chicken Creek Ski Trail. Planning Manager Karen Welch was present.

PROPOSED MANCOS WILDLIFE PARK (WETLANDS) owner Jan Redwood asked if she could split off and sell approximately 3 1/2 acres from a 10 1/2 acre parcel. A portion of the total acreage has been designated as wetlands by the State of Colorado. She stated that the 3 1/2 acres is not included in the State wetlands designated area. She was told she needs to make application for a moderate 2-lot subdivision. Planning Manager Karen Welch was present.

PLANNING: A planning resolution P-41-96E was presented whereas Rinda Bell, owner of 74 acres, would be granted an exemption to the subdivision regulations to record a 10 acre tract for her son, Scott Bell in Section 18, T.36N., R.15W. Owner of the 80 acres, Loren Bates split off and sold 32 acres to Virginia S. Wolf in 1995 without the required exemption. Request for an after-the-fact exemption by Ms. Wolf was discussed. Tentative approval was given for an after-the-fact exemption for Virginia S. Wolf. Subdivision regulations will not be applicable, since the remaining acreage is more than 35 acres. Later in the day a planning resolution P-43-96E After-The-Fact was presented whereas Virginia S. Wolf, owner of 32.11 acres, would be granted an exemption to the subdivision regulations to record an after-the-fact exemption in Section 4, T.36N., R.15W. It was noted on the resolution that direct access is off of CR 30.2 and any further division of this property would necessitate the landowner bringing this road up to then existing road specifications. This is the only exemption that will be granted this property. Comm Story moved to adopt this resolution, seconded by Comm McClellan and carried.

LANDOWNER Joe McDonald met to discuss his tentative plans to split 67 acres into 4 parcels. The land is adjacent to the City of Cortez. He stated he may look into the possibility of being annexed by the City. Sanitation and water needs were discussed.
