ade Springs, Colo, U

Whereas it has been made to appear to the Board that the State of Colorado is considering the matter of exchanging certain of its lends lying within the boundries of the United States Forest Reserve for other Government lands lying outside the Forest Reserve boundries; And whereas, the transfer of such State lends will forever remove them as possible future taxable property of Montezuma County: And whereas, there are citizens of Montezuma County engaged in the livestock business who have for years held such lands under lease from the State who will be greatly damaged if such lands are so exchanged by the State:

are so exchanged by the State: are so exchanged by the State. Now therefore, be it resolved that it is the sense of the Board of County Commissioners of Montezuma County that such exchanges would be detrimental to the best interests of this County, and that a copy of this resolution be forwarded to the Govenor of the State of Colorado and one to the State Board of Land Commissioners of Colorado.

Resolution was passed by the Board authorizing Ruth Givens, Director and Axel Johnson, Worker for the Montezuma County Public Welfare to take acknowledgments on all applications and any other papers in connection with the Public Welfare work except those requiring a regular notarial seal.

Re: La Plate Project No. 1.

We the undersigned County Commissioners of Mantesume County, do hereby approve the resolution adopted by the San Juan Basin Live Stock and Grazing Association, Incorporated on the 17th day of July, 1935, copy attached.

July, 1985, copy attached. In the past the products of the La Plata River have been slowly dwindling and values of land have decreased, due to the fact that large areas of land in Colorado were cleared and developed, thereby shortening the water supply for that part of La Plata Valley lying in La Plate County, Colorado. By building the dam referred to in the accompaning resolution, an ample supply of water will be provided for a large area of the most fertile lands in the State of Colorado and thereby enable the present home owners in said section, numbering 520 families, to save their homes and their life-time investor. time investments.

The entire San Juan Basin of Colorado will be benefited by the construction of this projec t and for this reason we urge the approval of this project.

Bau B. Reid Clerk.

Cheirman Board of County Commissioners.
