

COVID-19

Resources for Produce Growers

COLORADO STATE UNIVERSITY
EXTENSION

Helping you create best practices to keep your workforce healthy, your food products safe, and protect your business as much as possible during this COVID-19 outbreak.

Key Take-Aways for Farmers:

- Improve your farm's hygiene and sanitation programs by making them more frequent and in depth. Keep high-touch surfaces clean and sanitized. See resources for cleaning and sanitizing.
- Have ill employees stay at home. See resources for farm worker health and hygiene.
- Reduce numbers of customers at points of sale at any one time, maintaining social distancing. See resources for customer management and communication.
- Stay informed by checking updates on CDC, CDPHE and your local public health websites.
