# FAMILY EMERGENCY PREPAREDNESS PLAN

Regardless of the emergency situation or hazard anticipated, one of the best things you can do is to make a plan and prepare your family beforehand.

### **Create a Family Disaster Plan**

#### **Gather information**

- What disasters or hazards are most likely in your community? For your home?
- How would you be warned?
- How should you prepare for each?

# Know the emergency alert system for your area.

Learn the warning systems for your community.

### Obtain insurance for your family and home.

- Check your homeowners insurance
- Get additional coverage for situations that may not be covered.

#### Stay alert for emergency broadcasts.

- Emergency Alert System broadcasts
- NOAA weather radio alerts
- News and social media

# Choose a post-hazard meeting place for your family.

- A safe distance from your home for sudden emergencies.
- Outside your neighborhood in case you can't return home.
- Out of town location
- Learn where evacuation centers are located.

#### Make a family communication plan.

- Know how you will contact each other if you are at work, school or other location.
- Have an out-of-state friend or relative serve as an emergency contact for everyone to call.

- Keep a list of emergency phone numbers, including neighborhood contacts.
- Give emergency numbers to all family members and post by every phone.

## Make a family emergency supply kit.

 You may need to survive on your own temporarily until you can get assistance.

# Plan how you and your neighbors could work together during a disaster.

- Create a neighborhood communication plan.
- Help neighbors who have special needs, such as elderly or disabled persons.
- Make plans for childcare in case parents cannot get home.
- Learn plans for your work, children's schools, or other locations.

#### Don't forget to plan for your pets.

### **Family Emergency Plan Situations**

# Shelter-in-place

- Take immediate shelter wherever you are- home, work, school or in betweenrather than entering into a hazardous situation.
- Used for situations such as severe storms, winter weather, biological emergencies.
- Time will vary- a few hours to several days.

#### **Evacuation**

- Leaving your current location and seeking shelter at a safer place.
- For situations such as flood, fire or chemical accidents.
- Time will vary- days, weeks, or until the area is habitable again.
