I. Non-compliant On-site Wastewater Treatment Systems:

Update on the 3 non-compliant OWTS systems:

Two have paid the fees and provided engineered plans and are now in compliance.

Bailey/Phillips were served by MCSO and contacted MCPHD. They stated that a check was mailed to MCPHD on Friday May 12th. Suggestion was made to give a week to allow for mail delivery. BOH decision was to allow for this time. Beginning May 24th, a \$50 per day fine will be assessed for each day until the payment of \$600.00 is received.

MCPHD team will confirm with the County Attorney and BOH when the payment is received.
