- ONE PERSON quilt is defined as a quilt made by one person, only.
- DUET is a quilt constructed by one person and quilted by someone else.
- ART QUILT is a contemporary artwork of original design involving the creative expression and exploration of various processes, such as dyeing, printing, painting, stitching, embellishing, quilting, and weaving. An Art Quilt does not follow traditional block lines.
- MEMORY QUILTS are a way of remembering or celebrating family history, the life of a loved one, or an important event in life. Materials used can be clothing, photos, memorabilia, etc.
- APPLIQUE QUILTS use applique as the primary feature. The definition of applique is sewing of smaller pieces of fabric onto a large, whole piece of fabric. Applique quilts can include other quilting techniques in a secondary role.
- MODERN QUILTS are defined as quilts that are functional, include bold colors, and are inspired by modern design. Minimalism, asymmetry, expansive negative space, and alternate grid work are often a part of modern quilt composition, as are improvisational piecing and solid fabrics.
- WHOLE CLOTH QUILTS The top layer of a whole cloth quilt is made from a single piece of fabric. No patchwork or applique is used in the quilt design. The appearance of a whole cloth quilt relies on the quilting motifs that are chosen, and quilting stitches are usually intricate and closely spaced.

Buy Back Program

This program is set up to benefit the BUYERS of the Junior Livestock sale. It is designed to give the Buyers that do not have a need for multiple animals an

option to support the 4-H/FFA members by purchasing animals but not having to take possession of the purchased animal.

The “Buy back” bid is sent out prior to the County Fair for any person or business to submit a bid. The successful bidder must be willing to take all species that are designated for “Buy Back”. The successful bidder has a set price that they will pay for animals that the Sale Buyer does not need. The “Buy Back” Bidder is purchasing the animal directly from the Buyer for the amount of the “Buy Back” Bid.

Example- Chicken House Antiques thinks that Annie did a wonderful job on her steer project and decided that they want to support her, but they don't have a freezer big enough for a whole steer. They know that the “Buy Back” price for the year has been set at \$0.90 per pound. Annie's steer weighs 1200 pounds so they know that the “Buy Back” price will be \$1080.00. They have a budget of \$1500.00 to spend so they purchase Annie's Steer for \$2600.00.

Chicken House Antiques writes a check for \$1520.00 and the “Buy Back” Bidder writes a check for 1080.00 and the “Buy Back” bidder takes ownership of the Steer. Total sale price of Annie's steer is \$2600.00, but the “Buy Back” Bidder has helped Chicken House Antiques stay within their budget and still support Annie by purchasing an animal at the Junior Livestock Sale.

The Buy Back Price will be listed on the Sale Sheets after acceptance of the ‘Buy Back’ Bid by the Junior Livestock Sale Committee and is listed for the Convenience of the Livestock Buyer ONLY so they may quickly figure their expenditures. If your animal is placed in the “Buy Back” program by the Buyer it becomes the property of the ‘Buy Back’ bidder. The “Buy Back” Bidder **MAY** decide to offer the animal back to the member at the price of their choosing. **IF** the animals will be offered to the members the times and prices will be announced at the Mandatory Sale meeting Saturday morning.

It is NOT appropriate to ask a BUYER to place an animal on the “Buy Back” Program or to expect that you will be able to purchase your animal back from the “Buy Back” bidder. This is a COURTESY that the buyer voluntarily offers to the members. All Market Livestock that are sold at the Junior Livestock Sale should be viewed as terminal. If this rule is broken, member will not be allowed in the Livestock Sale the following year.
